We are looking forward to your application via the "Apply now" button!

We are a team of professionals with a start-up culture in charge of one of the largest digital innovation projects in our banking group. We have plans to build new digital banking end-to-end customer journeys and to roll banking service out across multiple CEE countries. We are looking for a motivated candidate who joins our team in Vienna as a:

## Daily Banking & Savings Manager (f/m/x)

### Your responsibilities

- Act as the deputy head of a team specialized on current accounts, savings, cards and payment use cases design & development.
- Key role in managing end-to-end initiatives in payments area for retail clients in multiple countries.
- Provide subject matter expertise on how features will be implemented.
- Prepare use cases delivery journeys. Prioritize backlog and ensure quality of epics and user stories business design.
- Participate in planning of delivery releases, incl. participation on grooming, participate in defining delivery road map.
- Act as a customer advocate.

### Your qualification

- 5+ years in product management / product owner roles, responsible for product design & development within a retail bank or payment services provider.
- Experience with implementation of local and cross-border payment solutions, understanding of payment rails and European payments regulations, and an understanding of basic FX products.
- Understanding bank product back-end setup.
- Experience with user acceptance testing.
- Digital savvy, great orientation in digital/neo banking industry and recent financial innovations.
- Fluent English.

### Our offer

- Depending on your concrete skills and experience we offer a compensation package starting from gross EUR 75,000.00 p.a. including overtime (All-In).
- Company benefits include home office possibility, job ticket, RDB vouchers, corporate benefit world, subsidized canteen and a lot more.
- A stable work environment within an innovative field of business with plenty of room to bring in your ideas and to grow individually.
